SKILLS

- **Languages**: Python, Java
- **Frameworks**: NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
- **Tools/Platforms**: MS-Excel, Power BI, MySQL
- **Soft Skills**: Problem-Solving, Team Player, Critical Thinking, Adaptability, Sociable

PROJECTS

- **Habit Hero App (Android)** | GitHub — June 2025 – July 2025
  - Build a personalized Android Habit-Tracking application enabling users to create, monitor and maintain habits with real time - feedback
  - Implemented secure user authentication, persistent and secure data storage for personalized, with habit streak tracking for long – term engagement
  - Deployed and designed daily remainder notifications, habit streaks, visual progress dashboards to increase user consistency and motivations.

  Tech: Java & Kotlin
- **Chatbot Developer – Version Control Assistant |** GitHub — March 2025
  - Architected a smart chatbot to manage version control operations, utilizing relevant tools and APIs for seamless automation and project integration
  - Engineered the bot to fetch repository data, provide contextual commands, and personalize recommendations for efficient team collaborations.
  - Enabled direct integration with chatbot on ongoing projects, improving workflow efficiency and speeding up the code review efficiency for developers

  Tech: GitHub, APIs, Python
- **Superstore Dashboard (MS Excel & Power BI) |** GitHub — February 2025
  - Generated a data-driven dashboard with slicers, allowing users to filter and analysing by different categories such as sales by product category, region and time-period
  - Automated complex KPIs (sales, profit, growth rates) using Pivot Table, DAX Formulas and more Advanced formulas which are used further for linked charts for instant business insights
  - Enabled drill-driven analysis from overall trends to granular transaction-level views, & improving strategic planning and inventory management systems

  Tech: MS Excel, Power BI, Slicers, Pivot Table, Charts

SUMMER TRAINING

SKILL DEVELOPMENT PROGRAM-LOVELY PROFESSIONAL UNIVERSITY | Certificate — June 2025 – August 2025

- Completed an intensive summer training program focused on Android application development using Android Studio.
- Developed Android applications by implementing UI/UX design principles, activity lifecycle, and navigation components.
- Worked on real-world projects involving API integration, data handling, and debugging.

Tech: Java / Kotlin (Basics), Android Studio, API Integration

CERTIFICATES

- Power BI Live Workshop | Office Master | Certificate — February 2026
- Build Generative Ai Apps & Solutions with No-Code Tools | Infosys Limited | Certificate — August 2025
- Computational Theory: Language Principle & Finite Automata Theory | Infosys | Certificate — August 2025
- Privacy and Security in Online Social Media | NPTEL | Certificate — April 2025
- Python for Data Science Microlearning | Board Infinity | Certificate — February 2024

EXTRA-CURRICULAR ACTIVITIES

- Achieved runner-up position in Arm Wrestling while representing our college at Delhi Technical University National Sports Event — April 2025
- Secured 3rd position and awarded the bronze medal in National-Level Badminton Tournament, representing my school Kendriya Vidyalaya Tughlakabad – New Delhi — March 2019

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; CGPA: 6.59 — Since August 2023
- **Kendriya Vidyalaya Kamla Nehru Nagar** — Ghaziabad, U.P.
  Intermediate; Percentage: 65% — April 2022 - March 2023
- **Kendriya Vidyalaya Kamla Nehru Nagar** — Ghaziabad, U.P.
  Matriculation; Percentage: 91% — April 2020 - March 2021
